FOR IMMEDIATE RELEASE

Lane and Ramp Closures on Harbor Freeway (I-110) for Slab Replacement

LOS ANGELES— The California Department of Transportation (Caltrans) will close lanes of southbound Harbor Freeway (I-110) for a concrete slab replacement project. Work will be performed on Friday, November 30 at 11 p.m. through Saturday, December 1 at 9 a.m.

Four lanes including on and off-ramps from the Santa Monica Freeway (I-10) to Slauson Avenue will be closed. Both directions of the I-10 connector to southbound I-110 will be closed. The express (HOT lanes) and first lane will remain open for motorists.

Closures are weather-permitting and subject to change. Motorists should expect delays and are strongly advised to avoid the area and use alternate routes. Additionally, motorists can check traffic conditions before they leave by visiting the Caltrans [Quickmap](#).

The closure is part of a \$39.5 million pavement rehabilitation project, which also includes upgrading guardrails, loop detectors, and curb ramps. All American Asphalt of Corona, CA is the contractor on this project, which is anticipated to complete January, 2021.

Caltrans reminds motorists to “Be Work Zone Alert” and “Slow for the Cone Zone.”
